NOTICES

PRIVATE MEMBERS' MOTIONS

1. *Mr. Shymko*—Resolution—That this House, on behalf of the people of Ontario, requests the Government of Canada to protest and condemn the latest wave of persecution, mass arrests, wounding and killing of freedom-loving Albanian nationals in Yugoslavia, mostly students and workers whose public demands for basic human, economic and national rights in the predominantly Albanian province of Kosovo have placed that region under an unprecedented state of emergency; and this House on behalf of the people of Ontario urges the Government of Canada to make appropriate representation before the Government of Yugoslavia expressing grave concern about these flagrant violations of basic human rights, in particular the ruthless action of State security forces, secret trials, torture and policies of ethnocide against the two million Albanians in Yugoslavia as documented by Amnesty International, and that such actions be opposed as incompatible with the provisions of the United Nations Charter, the Universal Declaration of Human Rights and the Helsinki Final Act to which the Government of Yugoslavia is a signatory.
2. *Mr. Kennedy*—Resolution—That in the opinion of this House, and in accordance with the Resolution of the Third Session of the 31st Parliament, passed on June 21st, 1979, the Government should introduce legislation to reduce the writ period of Provincial General Elections and By-elections to a length of 30 days; and further that the ballot include the registered political party affiliation of the candidates; and that the House give early consideration to the establishment of a Select Committee on Election Laws to consider such other election reforms as the Committee may deem appropriate.

5. *Debated May 28th, 1981.*
6. *Debated May 28th, 1981.*
7. *Mr. Gordon*—Resolution—That in the opinion of this House, the presently operating Task Force on Equal Opportunities and Access, set up by the Ontario Advisory Council on Multiculturalism and Citizenship, which is studying provincial government appointments to agencies, boards and commissions as well as government employment and promotion practices, be extended full co-operation and assistance by government ministries and agencies, and that the report of the Task Force be made public upon its completion.
8. *Mr. Philip*—Resolution—That, in the opinion of this House, the Government of Ontario should take immediate steps to develop programs and introduce Legislation designed to alleviate the current housing crisis evidenced by the rapidly increasing price of houses and the diminishing stock of decent affordable housing in Ontario, and that, in particular, the Government should: 1.

introduce a Housing Speculation Tax in the Assembly to tax away the speculative profits made by persons who buy and sell housing and land (for the purpose of making easy profits in a speculative market), but that includes a specific exemption for homeowners selling residences they occupy, and for long term investors who provide affordable rental accommodation; 2. sponsor the establishment of a Select Committee of the Assembly to inquire into and assess the impact of the flow of foreign speculative capital on the Province's housing market; and 3. establish effective housing programs to produce and upgrade the stock of decent, affordable housing in Ontario.

9. *Mr. Miller (Haldimand-Norfolk)*—Resolution—That, in the opinion of this House, the Government recognize that economic pressures are forcing many farmers in this province out of the agriculture industry, and that the Government take immediate steps to set up short and long term financial programs so that the agriculture industry will grow and prosper and compete equitably with agricultural financial assistance programs in other provinces—and give our young farmers an opportunity to get back to farming.
10. *Debated June 18th, 1981.*
11. *Debated June 1st, 1981.*
12. *Withdrawn October 13th, 1981.*
13. *Mr. Reid*—Resolution—That, in the opinion of this House, non-resident campers must stay at licensed tourist facilities, licensed trailer camps, hotels or motels, or provincial parks when camping, fishing or hunting in Ontario, and that they no longer be allowed to camp free on Crown Lands for up to three weeks.
14. *Mr. Robinson*—Resolution—That this Government take steps to amend the Highway Traffic Act and change the corresponding regulations dealing with the use of a seat belt assembly in motor vehicles such that protection under the Act be extended to children under the age of five years so as to ensure that children are adequately restrained and protected as passengers on the highways of the Province of Ontario.
15. *Mr. Johnston (Scarborough West)*—Resolution—That, in the opinion of this House, the Government of Ontario should establish a Select Committee or All-Party Task Force for the purpose of analyzing and making recommendations based on the Federal Report of the Special Committee on the Disabled and the Handicapped, entitled OBSTACLES. In particular, the committee or task force should consider these specific recommendations for possible development of programmes and the introduction of legislation: 1. that the key strategy for all government assistance to disabled persons in the future must be that of “independent living”. Wherever possible, disabled persons must be able to leave institutions and be provided with funds and the assistance they need to live on their own. The first step is for the government to review the income requirements of the disabled in order to ensure that they receive an adequate level of support. The province should work with the Federal Government to establish a Comprehensive Disability Insurance Pro-

gramme which would be integrated with the Canada Pension Plan. Until the Insurance Programme takes effect, the province and the federal government should share the costs for an income tested flat rate disability supplement to the CPP. The Plan itself should modify its Liquid Asset and Earnings Exemptions to allow for the extra costs incurred due to disability. 2. that the Ontario government require all firms with a substantial government contract to implement an Affirmative Action Programme for disabled persons. The government should establish an Affirmative Action Board through the Ontario Human Rights Commission to enforce contract compliance and provide guidelines and assistance to these firms. 3. that employers and labour unions in the private sector be encouraged to provide employment opportunities, income and job security to employees who become disabled either in or outside of the job. 4. that the provincial government work with both the federal and municipal levels of government to provide reasonable access for disabled persons to all modes of transportation. 5. that the Ontario government provide financial assistance and encouragement to municipalities to support by-laws and programmes which would increase the use of and access to all municipal services and facilities by the disabled, ensure that streetscape designs and architectural plans respect the needs of the handicapped, and require municipalities to have by-laws that permit the establishment of Group Homes and encourage the presence of disabled organizations. 6. that the Ontario government, in cooperation with the federal government, consumer groups, professional associations and voluntary organizations develop guidelines for standards of care in long-term institutional settings which protect the rights of the handicapped to privacy, to legal advice, and to refuse medical treatment. 7. that the Ontario government ensure that its industrial development and small business grants, loans and other incentives are made available to disabled persons and their organizations. 8. that election polling stations be located so that they are easily accessible to the disabled. 9. that the operation of Lieutenant Governor's Warrants be reviewed to protect the mentally handicapped and those deemed "criminally insane". 10. that all provincial departments, agencies or crown corporations' offices which are listed in the public telephone book be equipped with a teletypewriter (TDD) in order to provide telephone access to hearing and speech impaired persons. 11. that the government assume full responsibility for funding assistive devices for the handicapped under OHIP as recommended by the Ontario March of Dimes. 12. that the Ontario government negotiate with the Federal government the replacement of the Vocational Rehabilitation of Disabled Persons Act.

16. *Ms. Bryden*—Resolution—That in the opinion of this House, the Government of Ontario should: 1. use the power under section 63a subsection 8(a) of the Highway Traffic Act to make regulations "requiring the use of child seating and restraint systems in motor vehicles on highways and prescribing the specifications thereof"; 2. make it mandatory that seat belts, child car seats, or child restraint harnesses suited to their age and weight be required for all children while travelling in motor vehicles; 3. require that such child seating and restraint systems shall comply with the Children's Car Seats and Harnesses regulations under the Hazardous Products Act (Canada); 4. institute a public education program to inform the public about the necessity for these regulations and encourage compliance; 5. introduce legislation amending section 5 of The Retail Sales Tax Act to provide an exemption from the tax

imposed by the Act for purchasers of child seating and restraint systems that comply with the Children's Car Seats and Harnesses regulations under the Hazardous Products Act (Canada).

17. *Mr. Elston*—Resolution—That this House direct the Standing Committee on the Administration of Justice to immediately conduct an examination of the capabilities of the Ministry of Consumer and Commercial Relations to license, monitor and investigate the financial institutions of this Province.
 18. *Debated June 22nd, 1981.*
 19. *Mr. Samis*—Resolution—That this House requests the Parliament of Canada to include Ontario in the provisions of Section 133 of the British North America Act as part of any revised constitution in order that the francophone minorities of New Brunswick, Manitoba and Ontario be guaranteed the same language rights.
 20. *Mr. McClellan*—Resolution—That, in the opinion of this House, the Government recognizes that the Progressive Conservative Party of Ontario, many of its candidates and its constituency associations spent inordinate amounts of money during the last general election thereby seriously undermining the integrity of the electoral process, and that in order to correct this undemocratic development, this House directs the Commission on Election Contributions and Expenses to proceed immediately under Sections 4 (1) (d) and (f) of the Election Finances Reform Act. Specifically, the Commission should investigate expenditures by parties, candidates and constituency associations with a view to recommending amendments to the said Act to set spending limits for future provincial elections.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Shymko*—Resolution—That this House, on behalf of the people of Ontario, requests the Government of Canada to protest and condemn the latest wave of persecution, mass arrests, wounding and killing of freedom-loving Albanian nationals in Yugoslavia, mostly students and workers whose public demands for basic human, economic and national rights in the predominantly Albanian province of Kosovo have placed that region under an unprecedented state of emergency; and this House on behalf of the people of Ontario urges the Government of Canada to make appropriate representation before the Government of Yugoslavia expressing grave concern about these flagrant violations of basic human rights, in particular the ruthless action of State security forces, secret trials, torture and policies of ethnocide against the two million Albanians in Yugoslavia as documented by Amnesty International, and that such actions be opposed as incompatible with the provisions of the United Nations Charter, the Universal Declaration of Human Rights and the Helsinki Final Act to which the Government of Yugoslavia is a signatory.
2. *Mr. Kennedy*—Resolution—That in the opinion of this House, and in accordance with the Resolution of the Third Session of the 31st Parliament, passed on June 21st, 1979, the Government should introduce legislation to reduce the writ period of Provincial General Elections and By-elections to a length of 30 days; and further that the ballot include the registered political party affiliation of the candidates; and that the House give early consideration to the establishment of a Select Committee on Election Laws to consider such other election reforms as the Committee may deem appropriate.

6. *Debated May 28th, 1981.*
7. *Mr. Gordon*—Resolution—That in the opinion of this House, the presently operating Task Force on Equal Opportunities and Access, set up by the Ontario Advisory Council on Multiculturalism and Citizenship, which is studying provincial government appointments to agencies, boards and commissions as well as government employment and promotion practices, be extended full co-operation and assistance by government ministries and agencies, and that the report of the Task Force be made public upon its completion.
8. *Mr. Philip*—Resolution—That, in the opinion of this House, the Government of Ontario should take immediate steps to develop programs and introduce Legislation designed to alleviate the current housing crisis evidenced by the rapidly increasing price of houses and the diminishing stock of decent affordable housing in Ontario, and that, in particular, the Government should: 1.

introduce a Housing Speculation Tax in the Assembly to tax away the speculative profits made by persons who buy and sell housing and land (for the purpose of making easy profits in a speculative market), but that includes a specific exemption for homeowners selling residences they occupy, and for long term investors who provide affordable rental accommodation; 2. sponsor the establishment of a Select Committee of the Assembly to inquire into and assess the impact of the flow of foreign speculative capital on the Province's housing market; and 3. establish effective housing programs to produce and upgrade the stock of decent, affordable housing in Ontario.

9. *Mr. Miller (Haldimand-Norfolk)*—Resolution—That, in the opinion of this House, the Government recognize that economic pressures are forcing many farmers in this province out of the agriculture industry, and that the Government take immediate steps to set up short and long term financial programs so that the agriculture industry will grow and prosper and compete equitably with agricultural financial assistance programs in other provinces—and give our young farmers an opportunity to get back to farming.
10. *Debated June 18th, 1981.*
11. *Debated June 1st, 1981.*
12. *Withdrawn October 13th, 1981.*
13. *Mr. Reid*—Resolution—That, in the opinion of this House, non-resident campers must stay at licensed tourist facilities, licensed trailer camps, hotels or motels, or provincial parks when camping, fishing or hunting in Ontario, and that they no longer be allowed to camp free on Crown Lands for up to three weeks.
14. *Debated October 15th, 1981.*
15. *Mr. Johnston (Scarborough West)*—Resolution—That, in the opinion of this House, the Government of Ontario should establish a Select Committee or All-Party Task Force for the purpose of analyzing and making recommendations based on the Federal Report of the Special Committee on the Disabled and the Handicapped, entitled OBSTACLES. In particular, the committee or task force should consider these specific recommendations for possible development of programmes and the introduction of legislation: 1. that the key strategy for all government assistance to disabled persons in the future must be that of “independent living”. Wherever possible, disabled persons must be able to leave institutions and be provided with funds and the assistance they need to live on their own. The first step is for the government to review the income requirements of the disabled in order to ensure that they receive an adequate level of support. The province should work with the Federal Government to establish a Comprehensive Disability Insurance Programme which would be integrated with the Canada Pension Plan. Until the Insurance Programme takes effect, the province and the federal government should share the costs for an income tested flat rate disability supplement to the CPP. The Plan itself should modify its Liquid Asset and Earnings Exemptions to allow for the extra costs incurred due to disability. 2. that the Ontario government require all firms with a substantial government contract to

implement an Affirmative Action Programme for disabled persons. The government should establish an Affirmative Action Board through the Ontario Human Rights Commission to enforce contract compliance and provide guidelines and assistance to these firms. 3. that employers and labour unions in the private sector be encouraged to provide employment opportunities, income and job security to employees who become disabled either in or outside of the job. 4. that the provincial government work with both the federal and municipal levels of government to provide reasonable access for disabled persons to all modes of transportation. 5. that the Ontario government provide financial assistance and encouragement to municipalities to support by-laws and programmes which would increase the use of and access to all municipal services and facilities by the disabled, ensure that streetscape designs and architectural plans respect the needs of the handicapped, and require municipalities to have by-laws that permit the establishment of Group Homes and encourage the presence of disabled organizations. 6. that the Ontario government, in cooperation with the federal government, consumer groups, professional associations and voluntary organizations develop guidelines for standards of care in long-term institutional settings which protect the rights of the handicapped to privacy, to legal advice, and to refuse medical treatment. 7. that the Ontario government ensure that its industrial development and small business grants, loans and other incentives are made available to disabled persons and their organizations. 8. that election polling stations be located so that they are easily accessible to the disabled. 9. that the operation of Lieutenant Governor's Warrants be reviewed to protect the mentally handicapped and those deemed "criminally insane". 10. that all provincial departments, agencies or crown corporations' offices which are listed in the public telephone book be equipped with a teletypewriter (TDD) in order to provide telephone access to hearing and speech impaired persons. 11. that the government assume full responsibility for funding assistive devices for the handicapped under OHIP as recommended by the Ontario March of Dimes. 12. that the Ontario government negotiate with the Federal government the replacement of the Vocational Rehabilitation of Disabled Persons Act.

16. *Ms. Bryden*—Resolution—That in the opinion of this House, the Government of Ontario should: 1. use the power under section 63a subsection 8(a) of the Highway Traffic Act to make regulations "requiring the use of child seating and restraint systems in motor vehicles on highways and prescribing the specifications thereof"; 2. make it mandatory that seat belts, child car seats, or child restraint harnesses suited to their age and weight be required for all children while travelling in motor vehicles; 3. require that such child seating and restraint systems shall comply with the Children's Car Seats and Harnesses regulations under the Hazardous Products Act (Canada); 4. institute a public education program to inform the public about the necessity for these regulations and encourage compliance; 5. introduce legislation amending section 5 of The Retail Sales Tax Act to provide an exemption from the tax imposed by the Act for purchasers of child seating and restraint systems that comply with the Children's Car Seats and Harnesses regulations under the Hazardous Products Act (Canada).

17. *Mr. Elston*—Resolution—That this House direct the Standing Committee on the Administration of Justice to immediately conduct an examination of the capabilities of the Ministry of Consumer and Commercial Relations to license, monitor and investigate the financial institutions of this Province.

18. *Debated June 22nd, 1981.*
 19. *Mr. Samis*—Resolution—That this House requests the Parliament of Canada to include Ontario in the provisions of Section 133 of the British North America Act as part of any revised constitution in order that the francophone minorities of New Brunswick, Manitoba and Ontario be guaranteed the same language rights.
 20. *Mr. McClellan*—Resolution—That, in the opinion of this House, the Government recognizes that the Progressive Conservative Party of Ontario, many of its candidates and its constituency associations spent inordinate amounts of money during the last general election thereby seriously undermining the integrity of the electoral process, and that in order to correct this undemocratic development, this House directs the Commission on Election Contributions and Expenses to proceed immediately under Sections 4 (1) (*d*) and (*f*) of the Election Finances Reform Act. Specifically, the Commission should investigate expenditures by parties, candidates and constituency associations with a view to recommending amendments to the said Act to set spending limits for future provincial elections.
 21. *Mr. Van Horne*—Resolution—That, in the opinion of this House, the Government of Ontario implement immediately a mandatory measles immunization program for all children entering a school system recognized or authorized by the Ontario Government—that is, all public, separate and private schools—so that the incidence of measles can be effectively reduced as it has been in the United States where mandatory immunization has reduced the incidence of measles relatively to 10% of the incidence in Canada.
 22. *Mr. Jones*—Resolution—That the Lieutenant Governor in Council appoint a Committee, to be composed of the Speaker, Members of the House, and others who may be deemed appropriate, to advise and make recommendations with the intent of preserving the architectural integrity and heritage of the Parliament Building of Ontario, its grounds, and contents therein, in order to make preparations for an appropriate celebration of the centennial of the Building as the seat of the Legislature and a symbol of the living heritage of Ontario.
 23. *Mr. Brandt*—Resolution—That this House urge the Minister of Industry and Tourism and the Federal Department of Industry, Trade and Commerce, to encourage the expansion and development of the petrochemical industry in Ontario, through sector rationalization, negotiation of assured feedstocks, and increased international export marketing.

25. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Revenue should direct, immediately, the Assessment Branch of his Ministry to locate, through a questionnaire to each householder and home owner, all housing which has urea formaldehyde foam insulation (UFFI) and, further, take immediate steps to reduce the assessed value of such houses proportionate to the reduction in their market value due to the UFFI as required by the Assessment Act.

Further, guidelines for removal of the UFFI, inspecting and testing of the buildings and subsequent certification, should be prepared and forwarded to all municipalities.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Shymko*—Resolution—That this House, on behalf of the people of Ontario, requests the Government of Canada to protest and condemn the latest wave of persecution, mass arrests, wounding and killing of freedom-loving Albanian nationals in Yugoslavia, mostly students and workers whose public demands for basic human, economic and national rights in the predominantly Albanian province of Kosovo have placed that region under an unprecedented state of emergency; and this House on behalf of the people of Ontario urges the Government of Canada to make appropriate representation before the Government of Yugoslavia expressing grave concern about these flagrant violations of basic human rights, in particular the ruthless action of State security forces, secret trials, torture and policies of ethnocide against the two million Albanians in Yugoslavia as documented by Amnesty International, and that such actions be opposed as incompatible with the provisions of the United Nations Charter, the Universal Declaration of Human Rights and the Helsinki Final Act to which the Government of Yugoslavia is a signatory.
2. *Mr. Kennedy*—Resolution—That in the opinion of this House, and in accordance with the Resolution of the Third Session of the 31st Parliament, passed on June 21st, 1979, the Government should introduce legislation to reduce the writ period of Provincial General Elections and By-elections to a length of 30 days; and further that the ballot include the registered political party affiliation of the candidates; and that the House give early consideration to the establishment of a Select Committee on Election Laws to consider such other election reforms as the Committee may deem appropriate.

7. *Mr. Gordon*—Resolution—That in the opinion of this House, the presently operating Task Force on Equal Opportunities and Access, set up by the

Ontario Advisory Council on Multiculturalism and Citizenship, which is studying provincial government appointments to agencies, boards and commissions as well as government employment and promotion practices, be extended full co-operation and assistance by government ministries and agencies, and that the report of the Task Force be made public upon its completion.

8. *Mr. Philip*—Resolution—That, in the opinion of this House, the Government of Ontario should take immediate steps to develop programs and introduce Legislation designed to alleviate the current housing crisis evidenced by the rapidly increasing price of houses and the diminishing stock of decent affordable housing in Ontario, and that, in particular, the Government should: 1. introduce a Housing Speculation Tax in the Assembly to tax away the speculative profits made by persons who buy and sell housing and land (for the purpose of making easy profits in a speculative market), but that includes a specific exemption for homeowners selling residences they occupy, and for long term investors who provide affordable rental accommodation; 2. sponsor the establishment of a Select Committee of the Assembly to inquire into and assess the impact of the flow of foreign speculative capital on the Province's housing market; and 3. establish effective housing programs to produce and upgrade the stock of decent, affordable housing in Ontario.

12. *Withdrawn October 13th, 1981.*
13. *Mr. Reid*—Resolution—That, in the opinion of this House, non-resident campers must stay at licensed tourist facilities, licensed trailer camps, hotels or motels, or provincial parks when camping, fishing or hunting in Ontario, and that they no longer be allowed to camp free on Crown Lands for up to three weeks.
14. *Debated October 15th, 1981.*
15. *Mr. Johnston (Scarborough West)*—Resolution—That, in the opinion of this House, the Government of Ontario should establish a Select Committee or All-Party Task Force for the purpose of analyzing and making recommendations based on the Federal Report of the Special Committee on the Disabled and the Handicapped, entitled OBSTACLES. In particular, the committee or task force should consider these specific recommendations for possible development of programmes and the introduction of legislation: 1. that the key strategy for all government assistance to disabled persons in the future must be that of "independent living". Wherever possible, disabled persons must be able to leave institutions and be provided with funds and the assistance they need to live on their own. The first step is for the government to review the income requirements of the disabled in order to ensure that they receive an adequate level of support. The province should work with the Federal Government to establish a Comprehensive Disability Insurance Pro-

gramme which would be integrated with the Canada Pension Plan. Until the Insurance Programme takes effect, the province and the federal government should share the costs for an income tested flat rate disability supplement to the CPP. The Plan itself should modify its Liquid Asset and Earnings Exemptions to allow for the extra costs incurred due to disability. 2. that the Ontario government require all firms with a substantial government contract to implement an Affirmative Action Programme for disabled persons. The government should establish an Affirmative Action Board through the Ontario Human Rights Commission to enforce contract compliance and provide guidelines and assistance to these firms. 3. that employers and labour unions in the private sector be encouraged to provide employment opportunities, income and job security to employees who become disabled either in or outside of the job. 4. that the provincial government work with both the federal and municipal levels of government to provide reasonable access for disabled persons to all modes of transportation. 5. that the Ontario government provide financial assistance and encouragement to municipalities to support by-laws and programmes which would increase the use of and access to all municipal services and facilities by the disabled, ensure that streetscape designs and architectural plans respect the needs of the handicapped, and require municipalities to have by-laws that permit the establishment of Group Homes and encourage the presence of disabled organizations. 6. that the Ontario government, in cooperation with the federal government, consumer groups, professional associations and voluntary organizations develop guidelines for standards of care in long-term institutional settings which protect the rights of the handicapped to privacy, to legal advice, and to refuse medical treatment. 7. that the Ontario government ensure that its industrial development and small business grants, loans and other incentives are made available to disabled persons and their organizations. 8. that election polling stations be located so that they are easily accessible to the disabled. 9. that the operation of Lieutenant Governor's Warrants be reviewed to protect the mentally handicapped and those deemed "criminally insane". 10. that all provincial departments, agencies or crown corporations' offices which are listed in the public telephone book be equipped with a teletypewriter (TDD) in order to provide telephone access to hearing and speech impaired persons. 11. that the government assume full responsibility for funding assistive devices for the handicapped under OHIP as recommended by the Ontario March of Dimes. 12. that the Ontario government negotiate with the Federal government the replacement of the Vocational Rehabilitation of Disabled Persons Act.

16. *Ms. Bryden*—Resolution—That in the opinion of this House, the Government of Ontario should: 1. use the power under section 63a subsection 8(a) of the Highway Traffic Act to make regulations "requiring the use of child seating and restraint systems in motor vehicles on highways and prescribing the specifications thereof"; 2. make it mandatory that seat belts, child car seats, or child restraint harnesses suited to their age and weight be required for all children while travelling in motor vehicles; 3. require that such child seating and restraint systems shall comply with the Children's Car Seats and Harnesses regulations under the Hazardous Products Act (Canada); 4. institute a public education program to inform the public about the necessity for these regulations and encourage compliance; 5. introduce legislation amending section 5 of The Retail Sales Tax Act to provide an exemption from the tax

imposed by the Act for purchasers of child seating and restraint systems that comply with the Children's Car Seats and Harnesses regulations under the Hazardous Products Act (Canada).

17. *Mr. Elston*—Resolution—That this House direct the Standing Committee on the Administration of Justice to immediately conduct an examination of the capabilities of the Ministry of Consumer and Commercial Relations to license, monitor and investigate the financial institutions of this Province.
18. *Debated June 22nd, 1981.*
19. *Mr. Samis*—Resolution—That this House requests the Parliament of Canada to include Ontario in the provisions of Section 133 of the British North America Act as part of any revised constitution in order that the francophone minorities of New Brunswick, Manitoba and Ontario be guaranteed the same language rights.
20. *Mr. McClellan*—Resolution—That, in the opinion of this House, the Government recognizes that the Progressive Conservative Party of Ontario, many of its candidates and its constituency associations spent inordinate amounts of money during the last general election thereby seriously undermining the integrity of the electoral process, and that in order to correct this undemocratic development, this House directs the Commission on Election Contributions and Expenses to proceed immediately under Sections 4 (1) (d) and (f) of the Election Finances Reform Act. Specifically, the Commission should investigate expenditures by parties, candidates and constituency associations with a view to recommending amendments to the said Act to set spending limits for future provincial elections.
21. *Mr. Van Horne*—Resolution—That, in the opinion of this House, the Government of Ontario implement immediately a mandatory measles immunization program for all children entering a school system recognized or authorized by the Ontario Government—that is, all public, separate and private schools—so that the incidence of measles can be effectively reduced as it has been in the United States where mandatory immunization has reduced the incidence of measles relatively to 10% of the incidence in Canada.
22. *Mr. Jones*—Resolution—That the Lieutenant Governor in Council appoint a Committee, to be composed of the Speaker, Members of the House, and others who may be deemed appropriate, to advise and make recommendations with the intent of preserving the architectural integrity and heritage of the Parliament Building of Ontario, its grounds, and contents therein, in order to make preparations for an appropriate celebration of the centennial of the Building as the seat of the Legislature and a symbol of the living heritage of Ontario.
23. *Mr. Brandt*—Resolution—That this House urge the Minister of Industry and Tourism and the Federal Department of Industry, Trade and Commerce, to encourage the expansion and development of the petrochemical industry in Ontario, through sector rationalization, negotiation of assured feedstocks, and increased international export marketing.
24. *Mr. McGuigan*—Resolution—That this Government take steps to ensure that the Solicitor General's estimates contain provision for additional obligations

incurred under policing agreements with municipalities made pursuant to section 64 of the *Police Act* and that such provision be commensurate with payment received from municipalities under such agreements.

25. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Revenue should direct immediately, the Assessment Branch of his Ministry to locate, through a questionnaire to each householder and home owner, all housing which has urea formaldehyde foam insulation (UFFI) and, further, take immediate steps to reduce the assessed value of such houses proportionate to the reduction in their market value due to the UFFI as required by the *Assessment Act*.
 26. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Consumer and Commercial Relations should amend the Ontario Building Code Regulation 925-75 to provide that a municipal building permit is required for the removal of UFFI insulation from all buildings. The amendment should provide for adequate inspecting and testing for formaldehyde gas after removal of the UFFI and prior to retrofitting. Further, guidelines for removal of the UFFI, inspecting and testing of the buildings and subsequent certification should be prepared and forwarded to all municipalities.
 27. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Municipal Affairs and Housing should take action immediately to amend the *Municipal Act* so that municipalities would licence all contractors engaged in the removal of UFFI. Further, the Minister should develop licensing guidelines and urge all municipalities to use them.
 28. *Mr. Samis*—Resolution—That the Government of Ontario should bring to an end the discrimination on the basis of sex now contained in the *Family Benefits Act* by making the benefits that are available only to mothers who are the sole supporters of dependent children available to fathers who find themselves in a similar position.

NOTICES

PRIVATE MEMBERS' MOTIONS

1. *Mr. Shymko*—Resolution—That this House, on behalf of the people of Ontario, requests the Government of Canada to protest and condemn the latest wave of persecution, mass arrests, wounding and killing of freedom-loving Albanian nationals in Yugoslavia, mostly students and workers whose public demands for basic human, economic and national rights in the predominantly Albanian province of Kosovo have placed that region under an unprecedented state of emergency; and this House on behalf of the people of Ontario urges the Government of Canada to make appropriate representation before the Government of Yugoslavia expressing grave concern about these flagrant violations of basic human rights, in particular the ruthless action of State security forces, secret trials, torture and policies of ethnocide against the two million Albanians in Yugoslavia as documented by Amnesty International, and that such actions be opposed as incompatible with the provisions of the United Nations Charter, the Universal Declaration of Human Rights and the Helsinki Final Act to which the Government of Yugoslavia is a signatory.
2. *Mr. Kennedy*—Resolution—That in the opinion of this House, and in accordance with the Resolution of the Third Session of the 31st Parliament, passed on June 21st, 1979, the Government should introduce legislation to reduce the writ period of Provincial General Elections and By-elections to a length of 30 days; and further that the ballot include the registered political party affiliation of the candidates; and that the House give early consideration to the establishment of a Select Committee on Election Laws to consider such other election reforms as the Committee may deem appropriate.

7. *Mr. Gordon*—Resolution—That in the opinion of this House, the presently operating Task Force on Equal Opportunities and Access, set up by the Ontario Advisory Council on Multiculturalism and Citizenship, which is studying provincial government appointments to agencies, boards and commissions as well as government employment and promotion practices, be extended full co-operation and assistance by government ministries and agencies, and that the report of the Task Force be made public upon its completion.
8. *Mr. Philip*—Resolution—That, in the opinion of this House, the Government of Ontario should take immediate steps to develop programs and introduce Legislation designed to alleviate the current housing crisis evidenced by the rapidly increasing price of houses and the diminishing stock of decent affordable housing in Ontario, and that, in particular, the Government should: 1.

introduce a Housing Speculation Tax in the Assembly to tax away the speculative profits made by persons who buy and sell housing and land (for the purpose of making easy profits in a speculative market), but that includes a specific exemption for homeowners selling residences they occupy, and for long term investors who provide affordable rental accommodation; 2. sponsor the establishment of a Select Committee of the Assembly to inquire into and assess the impact of the flow of foreign speculative capital on the Province's housing market; and 3. establish effective housing programs to produce and upgrade the stock of decent, affordable housing in Ontario.

13. *Mr. Reid*—Resolution—That, in the opinion of this House, non-resident campers must stay at licensed tourist facilities, licensed trailer camps, hotels or motels, or provincial parks when camping, fishing or hunting in Ontario, and that they no longer be allowed to camp free on Crown Lands for up to three weeks.
14. *Debated October 15th, 1981.*
15. *Mr. Johnston* (Scarborough West)—Resolution—That, in the opinion of this House, the Government of Ontario should establish a Select Committee or All-Party Task Force for the purpose of analyzing and making recommendations based on the Federal Report of the Special Committee on the Disabled and the Handicapped, entitled OBSTACLES. In particular, the committee or task force should consider these specific recommendations for possible development of programmes and the introduction of legislation: 1. that the key strategy for all government assistance to disabled persons in the future must be that of "independent living". Wherever possible, disabled persons must be able to leave institutions and be provided with funds and the assistance they need to live on their own. The first step is for the government to review the income requirements of the disabled in order to ensure that they receive an adequate level of support. The province should work with the Federal Government to establish a Comprehensive Disability Insurance Programme which would be integrated with the Canada Pension Plan. Until the Insurance Programme takes effect, the province and the federal government should share the costs for an income tested flat rate disability supplement to the CPP. The Plan itself should modify its Liquid Asset and Earnings Exemptions to allow for the extra costs incurred due to disability. 2. that the Ontario government require all firms with a substantial government contract to implement an Affirmative Action Programme for disabled persons. The government should establish an Affirmative Action Board through the Ontario Human Rights Commission to enforce contract compliance and provide guidelines and assistance to these firms. 3. that employers and labour unions in the private sector be encouraged to provide employment opportunities, income and job security to employees who become disabled either in or

outside of the job. 4. that the provincial government work with both the federal and municipal levels of government to provide reasonable access for disabled persons to all modes of transportation. 5. that the Ontario government provide financial assistance and encouragement to municipalities to support by-laws and programmes which would increase the use of and access to all municipal services and facilities by the disabled, ensure that streetscape designs and architectural plans respect the needs of the handicapped, and require municipalities to have by-laws that permit the establishment of Group Homes and encourage the presence of disabled organizations. 6. that the Ontario government, in cooperation with the federal government, consumer groups, professional associations and voluntary organizations develop guidelines for standards of care in long-term institutional settings which protect the rights of the handicapped to privacy, to legal advice, and to refuse medical treatment. 7. that the Ontario government ensure that its industrial development and small business grants, loans and other incentives are made available to disabled persons and their organizations. 8. that election polling stations be located so that they are easily accessible to the disabled. 9. that the operation of Lieutenant Governor's Warrants be reviewed to protect the mentally handicapped and those deemed "criminally insane". 10. that all provincial departments, agencies or crown corporations' offices which are listed in the public telephone book be equipped with a teletypewriter (TDD) in order to provide telephone access to hearing and speech impaired persons. 11. that the government assume full responsibility for funding assistive devices for the handicapped under OHIP as recommended by the Ontario March of Dimes. 12. that the Ontario government negotiate with the Federal government the replacement of the Vocational Rehabilitation of Disabled Persons Act.

16. *Ms. Bryden*—Resolution—That in the opinion of this House, the Government of Ontario should: 1. use the power under section 63a subsection 8(a) of the Highway Traffic Act to make regulations "requiring the use of child seating and restraint systems in motor vehicles on highways and prescribing the specifications thereof"; 2. make it mandatory that seat belts, child car seats, or child restraint harnesses suited to their age and weight be required for all children while travelling in motor vehicles; 3. require that such child seating and restraint systems shall comply with the Children's Car Seats and Harnesses regulations under the Hazardous Products Act (Canada); 4. institute a public education program to inform the public about the necessity for these regulations and encourage compliance; 5. introduce legislation amending section 5 of The Retail Sales Tax Act to provide an exemption from the tax imposed by the Act for purchasers of child seating and restraint systems that comply with the Children's Car Seats and Harnesses regulations under the Hazardous Products Act (Canada).
17. *Debated October 29th, 1981.*
18. *Debated June 22nd, 1981.*
19. *Mr. Samis*—Resolution—That this House requests the Parliament of Canada to include Ontario in the provisions of Section 133 of the British North America Act as part of any revised constitution in order that the francophone minorities of New Brunswick, Manitoba and Ontario be guaranteed the same language rights.

20. *Mr. McClellan*—Resolution—That, in the opinion of this House, the Government recognizes that the Progressive Conservative Party of Ontario, many of its candidates and its constituency associations spent inordinate amounts of money during the last general election thereby seriously undermining the integrity of the electoral process, and that in order to correct this undemocratic development, this House directs the Commission on Election Contributions and Expenses to proceed immediately under Sections 4 (1) (d) and (f) of the Election Finances Reform Act. Specifically, the Commission should investigate expenditures by parties, candidates and constituency associations with a view to recommending amendments to the said Act to set spending limits for future provincial elections.
21. *Mr. Van Horne*—Resolution—That, in the opinion of this House, the Government of Ontario implement immediately a mandatory measles immunization program for all children entering a school system recognized or authorized by the Ontario Government—that is, all public, separate and private schools—so that the incidence of measles can be effectively reduced as it has been in the United States where mandatory immunization has reduced the incidence of measles relatively to 10% of the incidence in Canada.
22. *Debated October 29th, 1981.*
23. *Mr. Brandt*—Resolution—That this House urge the Minister of Industry and Tourism and the Federal Department of Industry, Trade and Commerce, to encourage the expansion and development of the petrochemical industry in Ontario, through sector rationalization, negotiation of assured feedstocks, and increased international export marketing.
24. *Mr. McGuigan*—Resolution—That this Government take steps to ensure that the Solicitor General's estimates contain provision for additional obligations incurred under policing agreements with municipalities made pursuant to section 64 of the *Police Act* and that such provision be commensurate with payment received from municipalities under such agreements.

NOTICES

PRIVATE MEMBERS' MOTIONS TABLED ON NOVEMBER 5th, 1981

(Private Members' Motions other than those directly related to Government Orders, will be published on the Notice Paper each Thursday.)

31. *Mr. MacDonald*—Motion of Censure—That this House has lost confidence in the Speaker's capacity to exercise the responsibilities of the chair with adequate competence and impartiality, thereby resulting in frequent infringement of the privileges of individual members and jeopardizing the orderly conduct of the legislative business. Therefore this House: 1. urges the Speaker to resign; and 2. establishes a committee made up of the House leaders of each party which would report back an acceptable list of nominee(s) for election by Members of the Legislature of a new Presiding Officer.
32. *Mr. Johnston*—Resolution—That in the opinion of this House the Government should provide that: 1. Access to universal (non-compulsory) tax-supported quality day care be recognized as an essential right of each child and family who needs it. 2. The day care system for Ontario provide care for children from infancy to age 12, based on the neighbourhood hub model, with provincial government funding available to neighbourhood centres to provide a full range and mix of services, including: (a) Group centres, principally in schools, but also in community centres, churches, libraries; (b) Private home day care, as set out in (6); (c) Part time care through group centres or drop-in facilities; (d) Emergency care for sick children, night care, and in-home care for the children of shift workers; (e) Workplace day care where appropriate; (f) Integrated neighbourhood-based group care for special needs children. 3. Responsibility for the provision of day care services should be transferred to a separate department of Early Childhood Care and Education within the Ministry of Education, and that an Inter-Ministry task force be established to examine this proposal. 4. The province be committed to provide funds for day care and assistance in implementation when 25 children within a school attendance area are in need of such services. 5. Day care funds be directed only to non-profit community-controlled child care centres and those operated by government. 6. Private home day care providers be registered as a condition of public funding, and where possible, private home day care be linked with neighbourhood group child care centres, and that Home care providers be offered training programmes and other support systems, and receive salaries and benefits commensurate with group care staff. 7. It be recognized that the standards existing in the present Day Nurseries' Act are the minimum required for good care, and that sufficient staff be employed to enforce these standards. 8. Persons with education and experience in the field of Early Childhood Education continue to be the primary staff in child care centres, and that salaries and benefits of day care workers be commensurate with other professional workers in education, nursing and social work. 9. Government operated child care centres institute a mechanism for parent/staff input and decision-making. 10. Publicly funded educational programmes be provided in languages of the community to increase public awareness of the goals, availability, operation and funding of day care services.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Shymko*—Resolution—That this House, on behalf of the people of Ontario, requests the Government of Canada to protest and condemn the latest wave of persecution, mass arrests, wounding and killing of freedom-loving Albanian nationals in Yugoslavia, mostly students and workers whose public demands for basic human, economic and national rights in the predominantly Albanian province of Kosovo have placed that region under an unprecedented state of emergency; and this House on behalf of the people of Ontario urges the Government of Canada to make appropriate representation before the Government of Yugoslavia expressing grave concern about these flagrant violations of basic human rights, in particular the ruthless action of State security forces, secret trials, torture and policies of ethnocide against the two million Albanians in Yugoslavia as documented by Amnesty International, and that such actions be opposed as incompatible with the provisions of the United Nations Charter, the Universal Declaration of Human Rights and the Helsinki Final Act to which the Government of Yugoslavia is a signatory.
2. *Mr. Kennedy*—Resolution—That in the opinion of this House, and in accordance with the Resolution of the Third Session of the 31st Parliament, passed on June 21st, 1979, the Government should introduce legislation to reduce the writ period of Provincial General Elections and By-elections to a length of 30 days; and further that the ballot include the registered political party affiliation of the candidates; and that the House give early consideration to the establishment of a Select Committee on Election Laws to consider such other election reforms as the Committee may deem appropriate.

8. *Mr. Philip*—Resolution—That, in the opinion of this House, the Government of Ontario should take immediate steps to develop programs and introduce Legislation designed to alleviate the current housing crisis evidenced by the rapidly increasing price of houses and the diminishing stock of decent affordable housing in Ontario, and that, in particular, the Government should: 1.

introduce a Housing Speculation Tax in the Assembly to tax away the speculative profits made by persons who buy and sell housing and land (for the purpose of making easy profits in a speculative market), but that includes a specific exemption for homeowners selling residences they occupy, and for long term investors who provide affordable rental accommodation; 2. sponsor the establishment of a Select Committee of the Assembly to inquire into and assess the impact of the flow of foreign speculative capital on the Province's housing market; and 3. establish effective housing programs to produce and upgrade the stock of decent, affordable housing in Ontario.

13. *Mr. Reid*—Resolution—That, in the opinion of this House, non-resident campers must stay at licensed tourist facilities, licensed trailer camps, hotels or motels, or provincial parks when camping, fishing or hunting in Ontario, and that they no longer be allowed to camp free on Crown Lands for up to three weeks.

15. *Mr. Johnston* (Scarborough West)—Resolution—That, in the opinion of this House, the Government of Ontario should establish a Select Committee or All-Party Task Force for the purpose of analyzing and making recommendations based on the Federal Report of the Special Committee on the Disabled and the Handicapped, entitled OBSTACLES. In particular, the committee or task force should consider these specific recommendations for possible development of programmes and the introduction of legislation: 1. that the key strategy for all government assistance to disabled persons in the future must be that of “independent living”. Wherever possible, disabled persons must be able to leave institutions and be provided with funds and the assistance they need to live on their own. The first step is for the government to review the income requirements of the disabled in order to ensure that they receive an adequate level of support. The province should work with the Federal Government to establish a Comprehensive Disability Insurance Programme which would be integrated with the Canada Pension Plan. Until the Insurance Programme takes effect, the province and the federal government should share the costs for an income tested flat rate disability supplement to the CPP. The Plan itself should modify its Liquid Asset and Earnings Exemptions to allow for the extra costs incurred due to disability. 2. that the Ontario government require all firms with a substantial government contract to implement an Affirmative Action Programme for disabled persons. The government should establish an Affirmative Action Board through the Ontario Human Rights Commission to enforce contract compliance and provide guidelines and assistance to these firms. 3. that employers and labour unions in the private sector be encouraged to provide employment opportunities, income and job security to employees who become disabled either in or

outside of the job. 4. that the provincial government work with both the federal and municipal levels of government to provide reasonable access for disabled persons to all modes of transportation. 5. that the Ontario government provide financial assistance and encouragement to municipalities to support by-laws and programmes which would increase the use of and access to all municipal services and facilities by the disabled, ensure that streetscape designs and architectural plans respect the needs of the handicapped, and require municipalities to have by-laws that permit the establishment of Group Homes and encourage the presence of disabled organizations. 6. that the Ontario government, in cooperation with the federal government, consumer groups, professional associations and voluntary organizations develop guidelines for standards of care in long-term institutional settings which protect the rights of the handicapped to privacy, to legal advice, and to refuse medical treatment. 7. that the Ontario government ensure that its industrial development and small business grants, loans and other incentives are made available to disabled persons and their organizations. 8. that election polling stations be located so that they are easily accessible to the disabled. 9. that the operation of Lieutenant Governor's Warrants be reviewed to protect the mentally handicapped and those deemed "criminally insane". 10. that all provincial departments, agencies or crown corporations' offices which are listed in the public telephone book be equipped with a teletypewriter (TDD) in order to provide telephone access to hearing and speech impaired persons. 11. that the government assume full responsibility for funding assistive devices for the handicapped under OHIP as recommended by the Ontario March of Dimes. 12. that the Ontario government negotiate with the Federal government the replacement of the Vocational Rehabilitation of Disabled Persons Act.

16. *Ms. Bryden*—Resolution—That in the opinion of this House, the Government of Ontario should: 1. use the power under section 63a subsection 8(a) of the Highway Traffic Act to make regulations "requiring the use of child seating and restraint systems in motor vehicles on highways and prescribing the specifications thereof"; 2. make it mandatory that seat belts, child car seats, or child restraint harnesses suited to their age and weight be required for all children while travelling in motor vehicles; 3. require that such child seating and restraint systems shall comply with the Children's Car Seats and Harnesses regulations under the Hazardous Products Act (Canada); 4. institute a public education program to inform the public about the necessity for these regulations and encourage compliance; 5. introduce legislation amending section 5 of The Retail Sales Tax Act to provide an exemption from the tax imposed by the Act for purchasers of child seating and restraint systems that comply with the Children's Car Seats and Harnesses regulations under the Hazardous Products Act (Canada).

21. *Mr. Van Horne*—Resolution—That, in the opinion of this House, the Government of Ontario implement immediately a mandatory measles immunization program for all children entering a school system recognized or authorized by the Ontario Government—that is, all public, separate and private schools—so that the incidence of measles can be effectively reduced as it has been in the United States where mandatory immunization has reduced the incidence of measles relatively to 10% of the incidence in Canada.

23. *Debated November 5th, 1981.*
24. *Mr. McGuigan*—Resolution—That in the opinion of this House the Government should take steps to ensure that the Solicitor General's estimates contain provision for additional obligations incurred under policing agreements with municipalities made pursuant to section 64 of the *Police Act*, and that such provision be commensurate with payment received from municipalities under such agreements.
25. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Revenue should direct immediately, the Assessment Branch of his Ministry to locate, through a questionnaire to each householder and home owner, all housing which has urea formaldehyde foam insulation (UFFI) and, further, take immediate steps to reduce the assessed value of such houses proportionate to the reduction in their market value due to the UFFI as required by the *Assessment Act*.
26. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Consumer and Commercial Relations should amend the Ontario Building Code Regulation 925-75 to provide that a municipal building permit is required for the removal of UFFI insulation from all buildings. The amendment should provide for adequate inspecting and testing for formaldehyde gas after removal of the UFFI and prior to retrofitting. Further, guidelines for removal of the UFFI, inspecting and testing of the buildings and subsequent certification should be prepared and forwarded to all municipalities.
27. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Municipal Affairs and Housing should take action immediately to amend the *Municipal Act* so that municipalities would licence all contractors engaged in the removal of UFFI. Further, the Minister should develop licensing guidelines and urge all municipalities to use them.
28. *Mr. Samis*—Resolution—That the Government of Ontario should bring to an end the discrimination on the basis of sex now contained in the *Family Benefits Act* by making the benefits that are available only to mothers who are the sole supporters of dependent children available to fathers who find themselves in a similar position.
29. *Mr. McLean*—Resolution—That this House urge the federal Minister of Regional Economic Expansion to extend the benefits for regional development to include the Northern part of Simcoe County, the District of Muskoka, and the northern parts of Grey County.

30. *Mr. Samis*—Resolution—That this House direct the Government of Ontario to approach the Government of Canada to request that the Constitution Act, 1981 (Canada), referred to in the proposed “Resolution containing a joint address to Her Majesty The Queen respecting the Constitution of Canada,” be amended so as to abolish the office of Lieutenant Governor for Ontario.
31. *Mr. MacDonald*—Motion of Censure—That this House has lost confidence in the Speaker’s capacity to exercise the responsibilities of the chair with adequate competence and impartiality, thereby resulting in frequent infringement of the privileges of individual members and jeopardizing the orderly conduct of the legislative business. Therefore this House: 1. urges the Speaker to resign; and 2. establishes a committee made up of the House leaders of each party which would report back an acceptable list of nominee(s) for election by Members of the Legislature of a new Presiding Officer.
32. *Mr. Johnston*—Resolution—That in the opinion of this House the Government should provide that: 1. Access to universal (non-compulsory) tax-supported quality day care be recognized as an essential right of each child and family who needs it. 2. The day care system for Ontario provide care for children from infancy to age 12, based on the neighbourhood hub model, with provincial government funding available to neighbourhood centres to provide a full range and mix of services, including: (a) Group centres, principally in schools, but also in community centres, churches, libraries; (b) Private home day care, as set out in (6); (c) Part time care through group centres or drop-in facilities; (d) Emergency care for sick children, night care, and in-home care for the children of shift workers; (e) Workplace day care where appropriate; (f) Integrated neighbourhood-based group care for special needs children. 3. Responsibility for the provision of day care services should be transferred to a separate department of Early Childhood Care and Education within the Ministry of Education, and that an Inter-Ministry task force be established to examine this proposal. 4. The province be committed to provide funds for day care and assistance in implementation when 25 children within a school attendance area are in need of such services. 5. Day care funds be directed only to non-profit community-controlled child care centres and those operated by government. 6. Private home day care providers be registered as a condition of public funding, and where possible, private home day care be linked with neighbourhood group child care centres, and that Home care providers be offered training programmes and other support systems, and receive salaries and benefits commensurate with group care staff. 7. It be recognized that the standards existing in the present Day Nurseries’ Act are the minimum required for good care, and that sufficient staff be employed to enforce these standards. 8. Persons with education and experience in the field of Early Childhood Education continue to be the primary staff in child care centres, and that salaries and benefits of day care workers be commensurate with other professional workers in education, nursing and social work. 9. Government operated child care centres institute a mechanism for parent/staff input and decision-making. 10. Publicly funded educational programmes be provided in languages of the community to increase public awareness of the goals, availability, operation and funding of day care services.
33. *Mr. Stokes*—Resolution—That in the opinion of this House the government should take immediate steps to reduce retail sales tax for those Ontario

residents who live north of the French River from the present rate of 7% to 3% and to reduce ad valorem tax on gasoline from 20% to 10%.

34. *Mr. Wildman*—Resolution—That this House deplores the role played by the Government of Ontario in acquiescing to the exclusion of Section 34 of the proposed “Resolution containing a joint address to Her Majesty The Queen respecting the Constitution of Canada” which recognized and affirmed aboriginal and treaty rights from the package agreed to by 10 first ministers at the recent federal-provincial constitutional conference and requests the Government of Canada to initiate immediately bilateral negotiations for inclusion of such a clause acceptable to both sides with representatives of the Indian, Metis and Inuit peoples of Canada who have been chosen by those groups themselves—including, in particular, representatives from the following organizations from Ontario: the Union of Ontario Indians, the Association of Iroquois and Allied Bands, Grand Council Treaty #9, Grand Council Treaty #3, the Ontario Metis and Non-Status Indian Association, and the Native Women’s Council.
35. *Mr. Williams*—Resolution—That in the opinion of this House, the Government should enact Legislation to establish a fixed 30-day writ period for Provincial Elections.

36. *Mr. Smith*—Motion under Standing Order No. 63 (a)—That, noting the Government's continued refusal to table significant information which led to the Premier's decision to purchase 25 % of the common shares of Suncor Inc., a decision to be ratified on November 20; and the overwhelming need for additional financial support for health, educational, industrial revitalization and energy substitution programmes instead of the commitment of \$650 million to the Suncor purchase, this House no longer has confidence in the Government.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Shymko*—Resolution—That this House, on behalf of the people of Ontario, requests the Government of Canada to protest and condemn the latest wave of persecution, mass arrests, wounding and killing of freedom-loving Albanian nationals in Yugoslavia, mostly students and workers whose public demands for basic human, economic and national rights in the predominantly Albanian province of Kosovo have placed that region under an unprecedented state of emergency; and this House on behalf of the people of Ontario urges the Government of Canada to make appropriate representation before the Government of Yugoslavia expressing grave concern about these flagrant violations of basic human rights, in particular the ruthless action of State security forces, secret trials, torture and policies of ethnocide against the two million Albanians in Yugoslavia as documented by Amnesty International, and that such actions be opposed as incompatible with the provisions of the United Nations Charter, the Universal Declaration of Human Rights and the Helsinki Final Act to which the Government of Yugoslavia is a signatory.
2. *Mr. Kennedy*—Resolution—That in the opinion of this House, and in accordance with the Resolution of the Third Session of the 31st Parliament, passed on June 21st, 1979, the Government should introduce legislation to reduce the writ period of Provincial General Elections and By-elections to a length of 30 days; and further that the ballot include the registered political party affiliation of the candidates; and that the House give early consideration to the establishment of a Select Committee on Election Laws to consider such other election reforms as the Committee may deem appropriate.

8. *Mr. Philip*—Resolution—That, in the opinion of this House, the Government of Ontario should take immediate steps to develop programs and introduce Legislation designed to alleviate the current housing crisis evidenced by the rapidly increasing price of houses and the diminishing stock of decent affordable housing in Ontario, and that, in particular, the Government should: 1.

introduce a Housing Speculation Tax in the Assembly to tax away the speculative profits made by persons who buy and sell housing and land (for the purpose of making easy profits in a speculative market), but that includes a specific exemption for homeowners selling residences they occupy, and for long term investors who provide affordable rental accommodation; 2. sponsor the establishment of a Select Committee of the Assembly to inquire into and assess the impact of the flow of foreign speculative capital on the Province's housing market; and 3. establish effective housing programs to produce and upgrade the stock of decent, affordable housing in Ontario.

14. *Debated October 15th, 1981.*
15. *Mr. Johnston* (Scarborough West)—Resolution—That, in the opinion of this House, the Government of Ontario should establish a Select Committee or All-Party Task Force for the purpose of analyzing and making recommendations based on the Federal Report of the Special Committee on the Disabled and the Handicapped, entitled OBSTACLES. In particular, the committee or task force should consider these specific recommendations for possible development of programmes and the introduction of legislation: 1. that the key strategy for all government assistance to disabled persons in the future must be that of “independent living”. Wherever possible, disabled persons must be able to leave institutions and be provided with funds and the assistance they need to live on their own. The first step is for the government to review the income requirements of the disabled in order to ensure that they receive an adequate level of support. The province should work with the Federal Government to establish a Comprehensive Disability Insurance Programme which would be integrated with the Canada Pension Plan. Until the Insurance Programme takes effect, the province and the federal government should share the costs for an income tested flat rate disability supplement to the CPP. The Plan itself should modify its Liquid Asset and Earnings Exemptions to allow for the extra costs incurred due to disability. 2. that the Ontario government require all firms with a substantial government contract to implement an Affirmative Action Programme for disabled persons. The government should establish an Affirmative Action Board through the Ontario Human Rights Commission to enforce contract compliance and provide guidelines and assistance to these firms. 3. that employers and labour unions in the private sector be encouraged to provide employment opportunities, income and job security to employees who become disabled either in or

outside of the job. 4. that the provincial government work with both the federal and municipal levels of government to provide reasonable access for disabled persons to all modes of transportation. 5. that the Ontario government provide financial assistance and encouragement to municipalities to support by-laws and programmes which would increase the use of and access to all municipal services and facilities by the disabled, ensure that streetscape designs and architectural plans respect the needs of the handicapped, and require municipalities to have by-laws that permit the establishment of Group Homes and encourage the presence of disabled organizations. 6. that the Ontario government, in cooperation with the federal government, consumer groups, professional associations and voluntary organizations develop guidelines for standards of care in long-term institutional settings which protect the rights of the handicapped to privacy, to legal advice, and to refuse medical treatment. 7. that the Ontario government ensure that its industrial development and small business grants, loans and other incentives are made available to disabled persons and their organizations. 8. that election polling stations be located so that they are easily accessible to the disabled. 9. that the operation of Lieutenant Governor's Warrants be reviewed to protect the mentally handicapped and those deemed "criminally insane". 10. that all provincial departments, agencies or crown corporations' offices which are listed in the public telephone book be equipped with a teletypewriter (TDD) in order to provide telephone access to hearing and speech impaired persons. 11. that the government assume full responsibility for funding assistive devices for the handicapped under OHIP as recommended by the Ontario March of Dimes. 12. that the Ontario government negotiate with the Federal government the replacement of the Vocational Rehabilitation of Disabled Persons Act.

16. *Ms. Bryden*—Resolution—That in the opinion of this House, the Government of Ontario should: 1. use the power under section 63a subsection 8(a) of the Highway Traffic Act to make regulations "requiring the use of child seating and restraint systems in motor vehicles on highways and prescribing the specifications thereof"; 2. make it mandatory that seat belts, child car seats, or child restraint harnesses suited to their age and weight be required for all children while travelling in motor vehicles; 3. require that such child seating and restraint systems shall comply with the Children's Car Seats and Harnesses regulations under the Hazardous Products Act (Canada); 4. institute a public education program to inform the public about the necessity for these regulations and encourage compliance; 5. introduce legislation amending section 5 of The Retail Sales Tax Act to provide an exemption from the tax imposed by the Act for purchasers of child seating and restraint systems that comply with the Children's Car Seats and Harnesses regulations under the Hazardous Products Act (Canada).
17. *Debated October 29th, 1981.*
18. *Debated June 22nd, 1981.*
19. *Mr. Samis*—Resolution—That this House requests the Parliament of Canada to include Ontario in the provisions of Section 133 of the British North America Act as part of any revised constitution in order that the francophone minorities of New Brunswick, Manitoba and Ontario be guaranteed the same language rights.

20. *Debated November 5th, 1981.*
21. *Mr. Van Horne*—Resolution—That, in the opinion of this House, the Government of Ontario implement immediately a mandatory measles immunization program for all children entering a school system recognized or authorized by the Ontario Government—that is, all public, separate and private schools—so that the incidence of measles can be effectively reduced as it has been in the United States where mandatory immunization has reduced the incidence of measles relatively to 10% of the incidence in Canada.
22. *Debated October 29th, 1981.*
23. *Debated November 5th, 1981.*
24. *Mr. McGuigan*—Resolution—That in the opinion of this House the Government should take steps to ensure that the Solicitor General's estimates contain provision for additional obligations incurred under policing agreements with municipalities made pursuant to section 64 of the *Police Act*, and that such provision be commensurate with payment received from municipalities under such agreements.
25. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Revenue should direct immediately, the Assessment Branch of his Ministry to locate, through a questionnaire to each householder and home owner, all housing which has urea formaldehyde foam insulation (UFFI) and, further, take immediate steps to reduce the assessed value of such houses proportionate to the reduction in their market value due to the UFFI as required by the *Assessment Act*.
26. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Consumer and Commercial Relations should amend the Ontario Building Code Regulation 925-75 to provide that a municipal building permit is required for the removal of UFFI insulation from all buildings. The amendment should provide for adequate inspecting and testing for formaldehyde gas after removal of the UFFI and prior to retrofitting. Further, guidelines for removal of the UFFI, inspecting and testing of the buildings and subsequent certification should be prepared and forwarded to all municipalities.
27. *Mr. Swart*—Resolution—That, in the opinion of this House, the Minister of Municipal Affairs and Housing should take action immediately to amend the *Municipal Act* so that municipalities would licence all contractors engaged in the removal of UFFI. Further, the Minister should develop licensing guidelines and urge all municipalities to use them.
28. *Mr. Samis*—Resolution—That the Government of Ontario should bring to an end the discrimination on the basis of sex now contained in the *Family Benefits Act* by making the benefits that are available only to mothers who are the sole supporters of dependent children available to fathers who find themselves in a similar position.
29. *Mr. McLean*—Resolution—That this House urge the federal Minister of Regional Economic Expansion to extend the benefits for regional development to include the Northern part of Simcoe County, the District of Muskoka, and the northern parts of Grey County.

30. *Mr. Samis*—Resolution—That this House direct the Government of Ontario to approach the Government of Canada to request that the Constitution Act, 1981 (Canada), referred to in the proposed “Resolution containing a joint address to Her Majesty The Queen respecting the Constitution of Canada,” be amended so as to abolish the office of Lieutenant Governor for Ontario.
31. *Debated November 16th, 1981.*
32. *Mr. Johnston*—Resolution—That in the opinion of this House the Government should provide that: 1. Access to universal (non-compulsory) tax-supported quality day care be recognized as an essential right of each child and family who needs it. 2. The day care system for Ontario provide care for children from infancy to age 12, based on the neighbourhood hub model, with provincial government funding available to neighbourhood centres to provide a full range and mix of services, including: (a) Group centres, principally in schools, but also in community centres, churches, libraries; (b) Private home day care, as set out in (6); (c) Part time care through group centres or drop-in facilities; (d) Emergency care for sick children, night care, and in-home care for the children of shift workers; (e) Workplace day care where appropriate; (f) Integrated neighbourhood-based group care for special needs children. 3. Responsibility for the provision of day care services should be transferred to a separate department of Early Childhood Care and Education within the Ministry of Education, and that an Inter-Ministry task force be established to examine this proposal. 4. The province be committed to provide funds for day care and assistance in implementation when 25 children within a school attendance area are in need of such services. 5. Day care funds be directed only to non-profit community-controlled child care centres and those operated by government. 6. Private home day care providers be registered as a condition of public funding, and where possible, private home day care be linked with neighbourhood group child care centres, and that Home care providers be offered training programmes and other support systems, and receive salaries and benefits commensurate with group care staff. 7. It be recognized that the standards existing in the present Day Nurseries’ Act are the minimum required for good care, and that sufficient staff be employed to enforce these standards. 8. Persons with education and experience in the field of Early Childhood Education continue to be the primary staff in child care centres, and that salaries and benefits of day care workers be commensurate with other professional workers in education, nursing and social work. 9. Government operated child care centres institute a mechanism for parent/staff input and decision-making. 10. Publicly funded educational programmes be provided in languages of the community to increase public awareness of the goals, availability, operation and funding of day care services.
33. *Mr. Stokes*—Resolution—That in the opinion of this House the government should take immediate steps to reduce retail sales tax for those Ontario residents who live north of the French River from the present rate of 7% to 3% and to reduce ad valorem tax on gasoline from 20% to 10%.
34. *Mr. Wildman*—Resolution—That this House deplores the role played by the Government of Ontario in acquiescing to the exclusion of Section 34 of the proposed “Resolution containing a joint address to Her Majesty The Queen respecting the Constitution of Canada” which recognized and affirmed

aboriginal and treaty rights from the package agreed to by 10 first ministers at the recent federal-provincial constitutional conference and requests the Government of Canada to initiate immediately bilateral negotiations for inclusion of such a clause acceptable to both sides with representatives of the Indian, Metis and Inuit peoples of Canada who have been chosen by those groups themselves—including, in particular, representatives from the following organizations from Ontario: the Union of Ontario Indians, the Association of Iroquois and Allied Bands, Grand Council Treaty #9, Grand Council Treaty #3, the Ontario Metis and Non-Status Indian Association, and the Native Women's Council.

35. *Mr. Williams*—Resolution—That in the opinion of this House, the Government should enact Legislation to establish a fixed 30-day writ period for Provincial Elections.
 36. *Mr. Smith*—Motion under Standing Order No. 63 (a)—That noting the Government's continued refusal to table significant information which led to the Premier's decision to purchase 25% of the common shares of Suncor Inc., a decision to be ratified on November 20; and the overwhelming need for additional financial support for health, educational, industrial revitalization and energy substitution programmes instead of the commitment of \$650 million to the Suncor purchase, this House no longer has confidence in the Government.
 37. *Ms. Bryden*—Notice of Reasoned Amendment—That Bill 115, An Act to amend the Regional Municipality of Hamilton-Wentworth Act be NOT now read a second time but be referred back to the government for redrafting to recognize that the limitation of store hours in the Region should be on a uniform basis throughout the Region as a general principle, but that provision should be made to allow limited exemptions for special occasions rather than grant the far-reaching powers of exemption provided for in the present amendment which would undermine the basic principles of section 134 of the Act.
 38. *Mr. Kennedy*—Resolution—That this House expresses its support in principle for the recommendations of the Report of the Federal Committee on Wage Protection in Matters of Bankruptcy and Insolvency tabled in the House of Commons on November 16, 1981 and recommends that steps be taken forthwith to urge its adoption through necessary legislative amendments and that the federal and provincial governments co-operate in the development of a permanent solution to the problem of unpaid wages and other compensation to which employees may be entitled at law as a result of loss of employment due to bankruptcies and insolvencies.
 39. *Mr. Gordon*—Resolution—That, in the opinion of this House, the Ontario Government, after the constitution is patriated, take the initiative in advocating that the Federal Government and the other provinces open constitutional talks to make the necessary amendments to ensure that the rights and freedoms referred to in the Charter are constitutionally guaranteed equally to male and female persons. In the interim, the Ontario Government should not take advantage of the proposed Section 33, the notwithstanding provision, of the Constitution Act, 1981, to enact legislation which would override the rights and freedoms guaranteed in the Charter equally to male and female persons.

NOTICES

PRIVATE MEMBER'S MOTION

(Private Members' Motions other than those directly related to Government Orders or Motions of Non-Confidence will be published on the Notice Paper each Thursday.)

37. *Ms. Bryden*—Notice of Reasoned Amendment—That Bill 115, An Act to amend the Regional Municipality of Hamilton-Wentworth Act be NOT now read a second time but be referred back to the government for redrafting to recognize that the limitation of store hours in the Region should be on a uniform basis throughout the Region as a general principle, but that provision should be made to allow limited exemptions for special occasions rather than grant the far-reaching powers of exemption provided for in the present amendment which would undermine the basic principles of section 134 of the Act.
